HARDY NORTHERN NUT TREES

More than 60 years ago Mr. E. A. Riehl began growing nut trees in an experimental way. Whenever he heard of a nut of superior size and quality, he procured nuts or scions to carry on his work of improving the nuts of our northern states and testing the hardiness and productiveness of the trees. Since that time many others have become interested in the work. There can be no finer avocation for a professional or business man than a grove of hardy nut trees; and every farm would be enhanced in value by a few nut trees grouped near the buildings or growing in fence corners or other little unused plots of ground. We have found our nut trees so interesting as well as profitable, that we decided to help others to do likewise. We have established a small nursery entirely devoted to the propagation of nut trees. Every year we graft a few trees of each of the most promising of the new varieties discovered by the U. S. Department of Agriculture and the Northern Nut Growers' Association. We send herewith a list of the available trees in the nursery this season. They vary in size from one year whips that were grafted last April to three year old, branched trees. Because there are so many varieties and so few of each kind, we find it more convenient to price all sizes alike. Purchasers are asked to state their preference, and orders will be filled with trees nearest the size wanted.

List of trees in E. A. Riehl Nursery, Spring 1939

BLACK WALNUTS \$2.00 each

5 Rohwer
138 Stambaugh
45 Stabler
185 Thomas
5 Ten Eyck

\$2.50 each

3 Allen
5 Burroughs
8 Beck
1 Booth
1 Cooper
1 Clark
5 Creitz
17 Edras
3 Edmonds
1 Freel
7 Grundy
1 Hadley
2 Hepler
1 Homeland
1 Hare
2 Hostetter
30 Lamb (Curley wood)
5 Learn
1 Metcalf
4 Mintle
2 Monteray
4 Oakes
3 Ogden
1 Pace
1 Robertd
3 Ritz
3 Swartz
5 Sifford
1 Sparrow
15 Tasterite
2 Todd
2 Throp
12 Wanda
1 Worthington
1 Wetzel
8 Wiard

\$5.00 each

6 Kettler

BUTTERNUTS \$2.50 each

22 Buckley
2 Helmick
5 Herrick
6 Johnson
5 Lingle
6 Mitchell
7 Sherwood
2 Thill
2 Van der Poppen

PECANS \$2.00 each

2 Indiana
1 Giles
2 Oberman
3 Posey
4 Witte

HICKORIES \$3.00 each

2 Anthony # 1
4 Beaver
1 Brooks
1 Caldwell
3 Cedarapids
2 Creager
2 Dennis
2 Dependahl
1 Goheen
3 Glover
1 Gissell
1 Kentuckey shag.
3 Kirtland
2 Lorane
2 Last
1 Mann
1 Manahan
3 Minnie
1 Petty
2 Shaul
1 Stratford
6 Siers
2 Spring Grove
1 Stephens
1 Vest
1 Weiker

HICANS \$3.00 each

4 Bixby
4 Burlington
2 Des Moines
3 Dintelman
10 Fairbanks
20 Gerardi
2 McAllister
1 Pleas
1 Rockville

HEARTNUTS \$2.50 each

3 Faust
4 Stranger

PERSIAN WALNUT \$3.00 each

4 Broadview

1000 Chinese chestnut seedlings, 4 to 8 ft. 50¢ each.

Selected best trees 75¢ each.

HARDY RICHARDSON

filled with trees nearest the size wanted. Similar like, Purshouse are asked to state their preference many varieties and so few of each kind, we find it more convenient to were grafted last April to three year old, branched trees. Because able trees in the nursery this season. They vary in size from one year and the Northern Nurseries' Association. We had herewith a list promising of the new varieties discovered by the U. S. Department of Agriculture of nut trees. Every year we plant a few trees of each to do likewise. We have established a small nursery entirely of our nut trees so interesting as well as profitable that we had growing in fence corners or other little unused plots of ground. A firm would be enhanced in value by a few nut trees grafted near for a professional or business man than a grove of hardy nut trees many others have become interested in the work. These nut trees states and testing the hardiness and productivity of the trees. Grafted nut trees or bolons to carry on his work in the nursery. In the final way. Whenever he heard of a nut of superior kind and quality more than 50 years ago Mr. E. A. Kitchin began planting nut trees.
